

Investment Opportunity:

Jinbox GmbH

November 13, 2018

DESCRIPTION:

Sales-oriented knowledge management platform. Developing solutions to accelerate sales and purchase process by solving automatic question routing, RFI/RFP management, proposal creation and tender organisation.

SOLUTION / BUSINESS CONCEPT:

We aim to create a system where companies can create set of questions (RFI/RFP) and send the link to other companies to be answered. When sales company receives the questions, system will show all previous answers and documents to accelerate the answering process.

STAGE:

Seed

RANGE:

< CHF 500k

USE OF FUNDS:

We have created and deployed the sales and knowledge management part of our solution. With new funds we aim to create a tender management process to cover the purchase and proposal creation part. That will result on an unique platform covering both sales and purchase processes.
